TODAY'S FAST & EASY SURVEY IS ABOUT FACILITIES AND ACTIVITIES TO IMPROVE QUALITY OF LIFE IN ANDAMOOKA:

SIMPLY TAKE EACH COMMUNITY RECOMMENDATION AS SET OUT BELOW, AND RATE THIS AS HOW IMPORTANT YOU SEE IT AS A PRIORITY ON A SCALE OF ONE TO TEN.

ONE BEING OF LOW PRIORITY AND TEN BEING OF VERY HIGH PRIORITY.

This would place #5 as being a great idea, and I'd like to see this, but other things are more important just now...

Install outdoor fitness stations across the rear of the under-cover pump-track recreation space.	<ul style="list-style-type: none"> This would make these fitness stations accessible to community & visitors 24/7. Parents/carers could undertake fitness activities whilst supervising children at play. Provides shaded all weather recreation space to families and visitors to encourage healthy lifestyles and connection with others. 		
Reinstate the volleyball court next to the cottages.	<ul style="list-style-type: none"> This would create a centrally located space for recreational sport and activities. 		
Upgrade the unused space next to the Cottages - Install an outdoor stage and improve the surface of that area to accommodate seating and other outdoor activities.	<ul style="list-style-type: none"> This would provide a stage/platform for bands and other performances. The stage could incorporate a large screen for a centrally placed outdoor theatre. This would encourage more frequent use of the space and offer new opportunities for community and visitor entertainment. 		
Make the sports court more accessible for community use.	<ul style="list-style-type: none"> A solution may be to open the court to casual use by community between set daily hours. Eg: 9.30am to 5.30pm A concern is that this would open it to possible abuse or vandalism. But daytime hours will assist with deterring this.
